

So Many Heroes

Words and Music by Tony Asch

When the storms blew in
Left so many in despair
I saw people rise up
with so much love to share
I saw so many heroes
I saw so many heroes
I saw so many heroes stepping up to save and rebuild

I saw people reaching out
Pulling other people free
The sacrifice and courage
It all humbled me
I saw so many heroes
I saw so many heroes
I saw so many heroes stepping up to save and rebuild

I asked my city
What is it I can do?
I want to be of service and to help our people too
Because you're all my heroes
You are all my heroes
You are all my heroes
And I want to show my love to you

Now we're gonna keep on reaching out
We're gonna keep on being kind
Long after this storm

Has left its scars behind
We need so many heroes
We need so many heroes
We're gonna keep on being heroes
And love this city on through

We need so many heroes
We need so many heroes
We're gonna keep on being heroes
And love this city on through

Yeah, We're gonna keep on being heroes
And love this city brand new!
